Hi Kyle,

Tim and I kicked off the templating and taxonomy for the Legal Storehouse today. Can you review to make sure we haven't missed any steps?

- Added two new Taxonomy categories for "Legal Storehouse Topics" and "Legal Storehouse Document Source". For the topics, we'll need the ability to add a paragraph description; but I'm not sure how to do that on the taxonomy item.
- Created a template for LegalStorehouseResources.
- Added a folder under /Resources for the legal storehouse and set up a test item

Once we've made any modifications, Tim is ready to get to work adding content.

Warm regards,
